

Neutralizer™ Refinishing Gun

AUTOMOTIVE

INDUSTRIAL

MODELS P-2021-Z705

ALPHA

The Neutralizer™ Refinishing Gun was designed specifically as an antistatic refinishing gun for the autobody, boat building and furniture industries.

The Model P-2021-Z705 is highly effective at removing static charges and particulate while minimizing re-attraction of dust particles. This, in turn, reduces costly rework and allows for a superior end product.

APPLICATIONS

- Autobody painting, boat building, furniture finishing

FEATURES

- One-step static removal
- Self-powered
- Low maintenance

BENEFITS

- Never goes out of balance
- Saves time and money
- No need for electrical power

EVERY SITUATION IS UNIQUE. SO IS EVERY SOLUTION.®

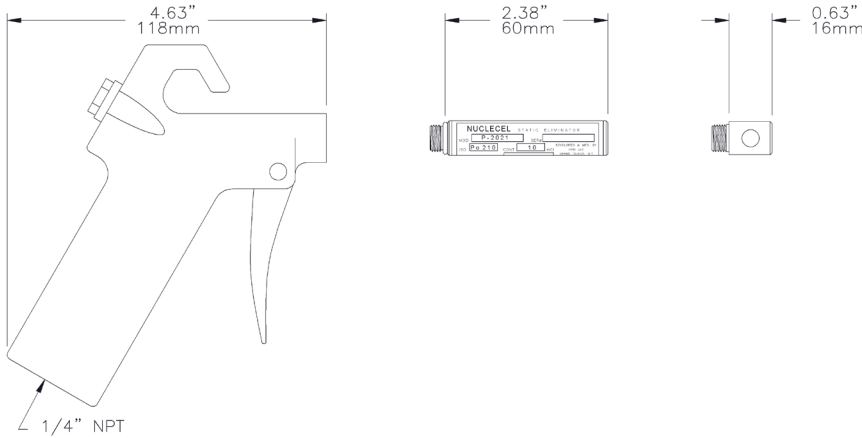

Neutralizer™ Refinishing Gun

MODELS P-2021-Z705

ALPHA

SCHEMATICS

SPECIFICATIONS

Activity: 10 mCi (370MBq) (P-2021)

Balance: ±0 V

Dimensions: 5.25in W x 7.64in L
(133.35 mm x 194 mm)

Effective Distance: 4in – 12in (102 mm – 305mm)

Finish: Aluminum handle, stainless steel ionizer

Gas Input: 40-100 psi, Clean Dry Air (CDA) or Nitrogen

Line Connection: 1/8 in – 27 NPSM thread male/female

Technology: Alpha

Weight: 9.3 oz (.26 kg)

DECAY RATE:

0.7 seconds (±1000 to 100V), ANSI/ESD Association STM 3.1 @ 30 psig, 1 foot

ACCESSORIES

Replacement Ionizer and Tip for Model P-2021-Z705
P-2021-Z005

Replacement Gun Handle
Model SA2

MAINTENANCE

Product is supplied complete with ionizers. It is necessary to replace ionizers every 12 months to maintain peak effectiveness.

NOTE ON ION SOURCE: All NRD ion sources are encapsulated in precious metals by means of a special patented process. This results in a static eliminator which, unlike competitive products, resists oxidation, solvents, heat, cold and vibration.

NOTICE: NRD expressly warrants that, for a period of one (1) year from the time of purchase, the ionizer will be free of defects in material (parts) and workmanship (labor).
